## The PowerPoint Window

PowerPoint is a presentation software package. With PowerPoint, you can easily create slide shows.

- The Microsoft Office Button
- The Quick Access Toolbar
- The Title Bar
- The Ribbon
- Rulers
- Slides, Placeholders, and Notes
- Status Bar, Tabs, View Buttons, and More
- Create a Title Slide
- Create New Slides
- Make Changes to Your Slides
- Apply a Theme
- Run Your PowerPoint Slide Show

## The PowerPoint Window

### The Microsoft Office Button

In the upper-left corner is the Microsoft Office button. When you click the button, a menu appears. You can use the menu to create a new file, open an existing file, save a file, and perform many other tasks.

### The Quick Access Toolbar

Next to the Microsoft Office button is the Quick Access toolbar. The Quick Access toolbar provides you with access to commands you frequently use.

## The Title Bar

The Title bar is located at the top in the center of the PowerPoint window. The Title bar displays the name of the presentation on which you are currently working.

## The Ribbon

1	<b>Tabs</b>
2	<b>Command Group</b>
3	<b>Command Buttons</b>
4	<b>Launcher</b>

You use the Ribbon to issue commands. The Ribbon is located near the top of the PowerPoint window, below the Quick Access toolbar.

## Rulers

Rulers are vertical and horizontal guides. You use them to determine where you want to place an object. If the rulers do not display in your PowerPoint window:

1. Click the View tab.
2. Click Ruler in the Show/Hide group. The rulers appear.

## Slides, Placeholders, and Notes

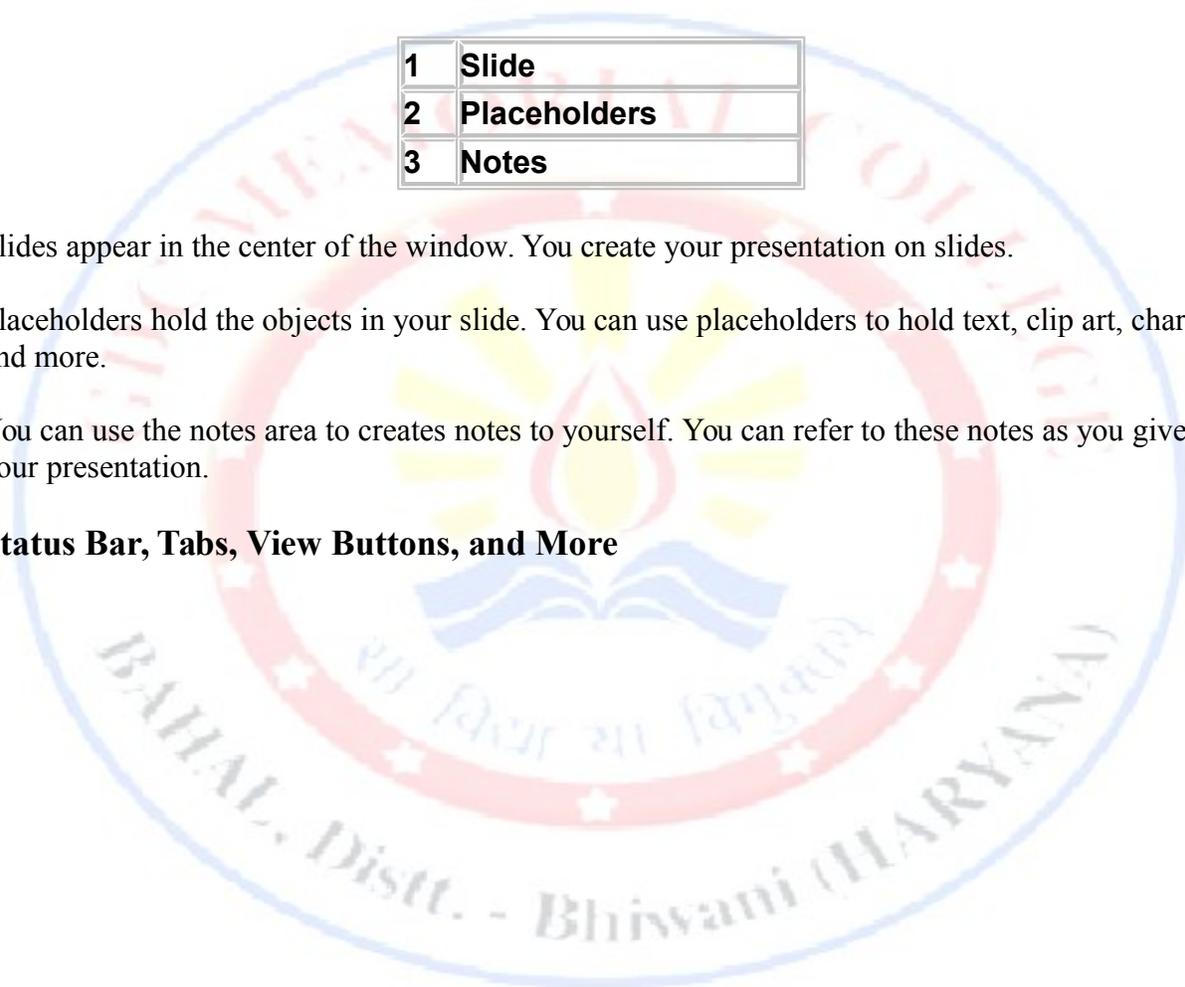

1	Slide
2	Placeholders
3	Notes

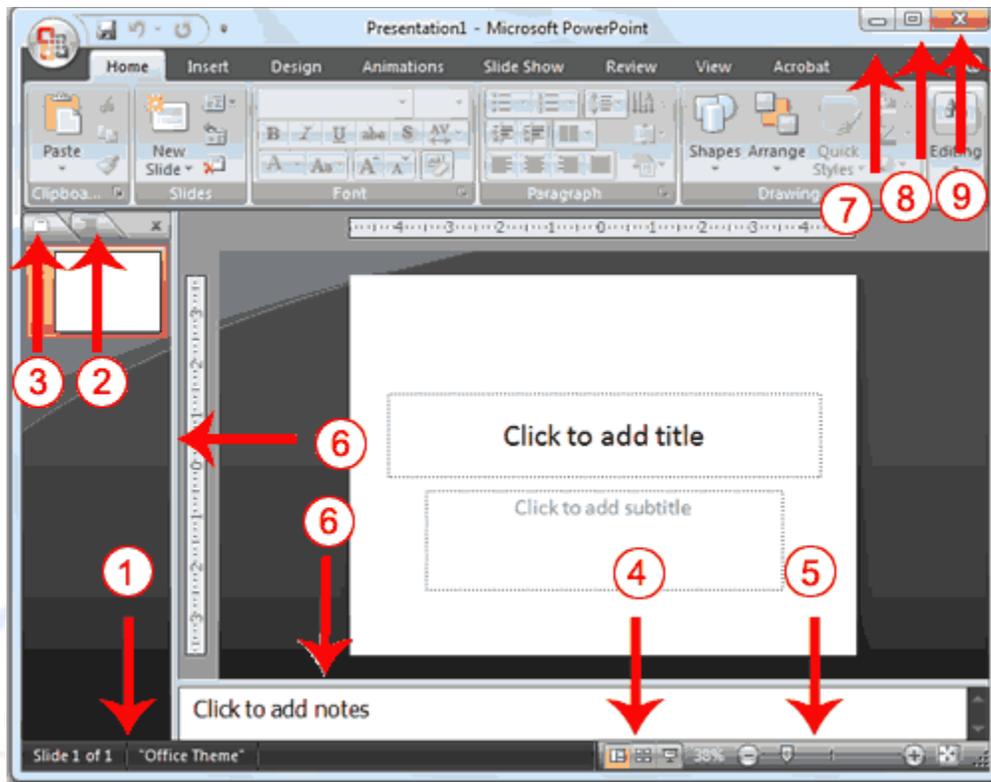

Slides appear in the center of the window. You create your presentation on slides.

Placeholders hold the objects in your slide. You can use placeholders to hold text, clip art, charts, and more.

You can use the notes area to create notes to yourself. You can refer to these notes as you give your presentation.

### **Status Bar, Tabs, View Buttons, and More**

1	Status Bar	6	Vertical & Horizontal Splitter Bars
2	Outline Tab	7	Minimize Button
3	Slides Tab	8	Maximize/Restore Button
4	View Buttons	9	Close Button
5	Zoom		

The Status bar generally appears at the bottom of the window. The Status bar displays the number of the slide that is currently displayed, the total number of slides, and the name of the design template in use or the name of the background.

The Outline tab displays the text contained in your presentation. The Slides tab displays a thumbnail of all your slides. You click the thumbnail to view the slide in the Slide pane.

The View buttons appear near the bottom of the screen. You use the View buttons to change between Normal view, Slider Sorter view, and the Slide Show view.

#### Normal View

Normal view splits your screen into three major sections: the Outline and Slides tabs, the Slide pane, and the Notes area.

### Slide Sorter View

Slide Sorter view shows thumbnails of all your slides. In Slide Sorter view, you can easily add, delete, or change their order of your slides.

### Slide Show

Use the Slide Show view when you want to view your slides, as they will look in your final presentation. When in Slide Show view:

Esc	Returns you to the view you were using previously.
Left-clicking	Moves you to the next slide or animation effect. When you reach the last slide, you automatically return to your previous view.
Right-clicking	Opens a pop-up menu. You can use this menu to navigate the slides, add <b>speaker</b> notes, select a pointer, and mark your presentation.

Zoom  allows you to zoom in and zoom out on the window. Zooming in makes the window larger so you focus in on an object. Zooming out makes the window smaller so you can see the entire window.

You can click and drag the vertical and horizontal splitter bars to change the size of your panes.

You use the Minimize button  to remove a window from view. While a window is minimized, its title appears on the taskbar. You click the Maximize button  to cause a window to fill the screen. After you maximize a window, clicking the Restore button  returns the window to its former smaller size. You click the Close button  to exit the window and close the program.

## Creating Your First PowerPoint Presentation

You create your PowerPoint presentation on slides. You use layouts to organize the content on each slide. PowerPoint has several slide layouts from which to choose.

Themes are sets of colors, fonts, and special effects. Backgrounds add a colored background to your slides. You can add themes and backgrounds to your slides.

### Create a Title Slide

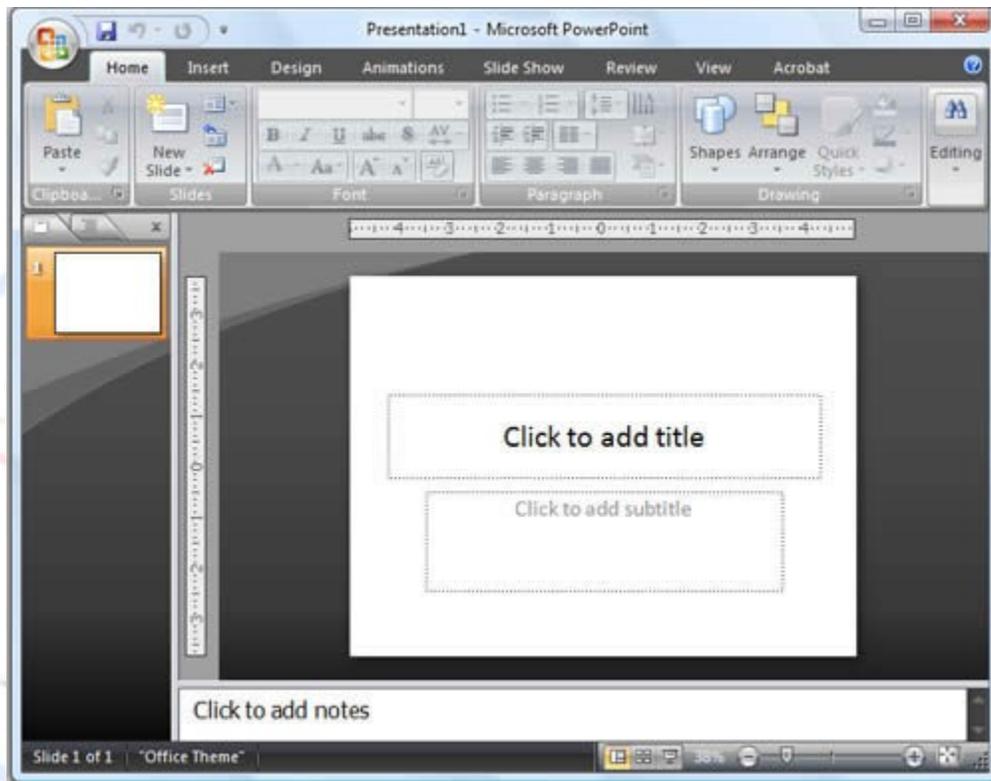

When you start PowerPoint, PowerPoint displays the title slide in the Slide pane. You can type the title of your presentation and a subtitle on this slide. To enter text:

- Click and type the title of your presentation in the "Click to add title" area.
- Click and type a subtitle in the "Click to add subtitle" area.

If you do not wish to use the title slide, click the Delete Slide button  in the Slides group on the Home tab.

### **Create a Title Slide**

1. Open PowerPoint. You are presented with a title slide.

2. Enter the information shown here. Type **College Scholarships and Financial Aid** in the Click to Add Title text box. Type **Paying for College** in the Click to Add Subtitle text box.

## Animations, Transitions, Spell Check, Outline Tab, Slides Tab, Sorter View, and Printing

Animations control how objects move onto, off of, and around your slides. Transitions control how your presentation moves from one slide to the next.

### Add Animations

You can animate the objects on your PowerPoint slides. PowerPoint provides four types of animations: Entrance, Emphasis, Exit, and Motion Paths. An **Entrance** animation determines the manner in which an object appears on a slide; for example, an object can move onto a slide. An **Emphasis** animation does something to draw attention to an object; for example, the object can become larger. An **Exit** animation determines the manner in which an object leaves a slide; for example, an object can move off a slide. A **Motion Paths** animation determines how an object moves around a slide; for example, an object can move from left to right.

If the Auto Preview box is checked on the Custom Animation pane, PowerPoint provides you with preview of your animation after you create it and each time you modify it. You can also use the Play button  Play on the Custom Animation pane to preview an animation.

To choose an effect:

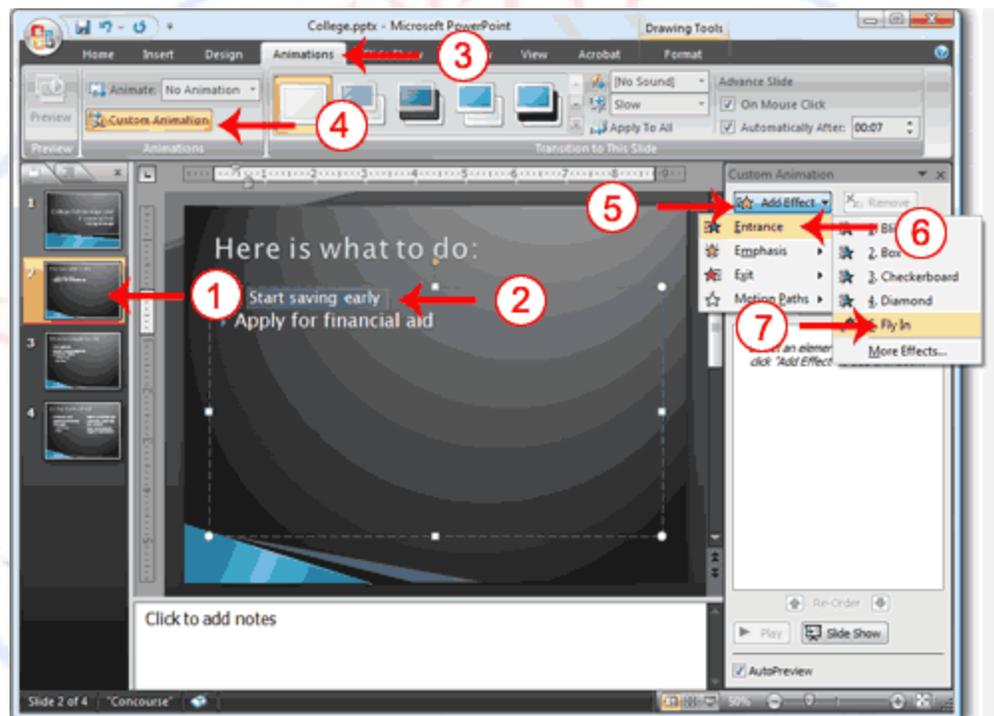

1. Select the object you want to animate.
2. Choose the Animations tab.
3. Click the Custom Animation button  Custom Animation . The Custom Animation pane appears.
4. Click the Add Effect button  Add Effect . A menu appears.
5. Choose the type of effect you want. A submenu appears.
6. Click the effect you want. PowerPoint applies the effect.

To modify an effect:

1. Click the down arrow next to the Start field on the Custom Animations pane and then select the start method you want.
2. Click the down arrow next to the Property field on the Custom Animations pane and then select the property you want. The Property field might be labeled Direction, Size, or some other property.
3. Click the down arrow next to the Speed field on the Custom Animations pane and then select the speed you want to apply to your animation.

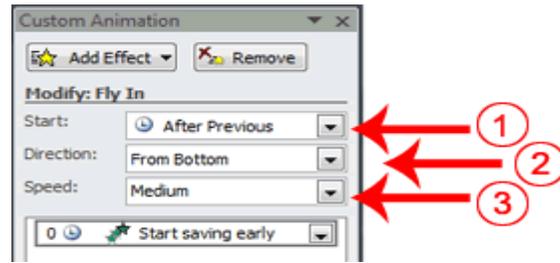

To preview the animation, click the Play button  on the Custom Animations pane.

### Add an Animation to a Slide

1. Click Slide 2 on the Slides tab.
2. Select "Start saving early."
3. Choose the Animations tab.
4. Click the Custom Animation button . The Custom Animation pane appears.
5. Click the Add Effect button . A menu appears.
6. Choose Entrance. A submenu appears.
7. Click Fly In. PowerPoint applies the effect. If the Auto preview box is checked, PowerPoint automatically provides you with a preview of the animation.

## Modify the Effect

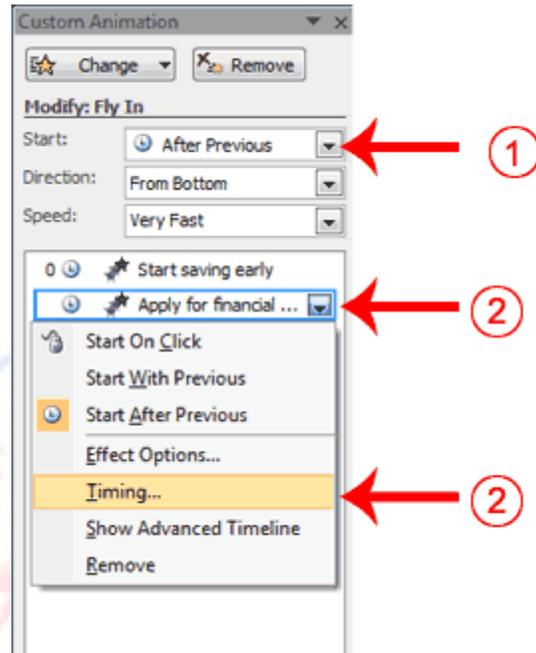

1. Click the down arrow next to the Start field and then select After Previous.
2. Click the down arrow next to the Direction field and then select From Bottom.
3. Click the down arrow next to the Speed field and then select Medium.

## Add Another Animation

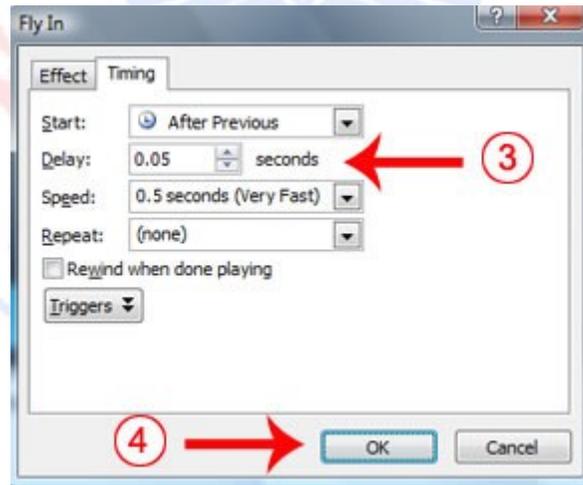

1. Select "Apply for financial aid."
2. Click the Add Effect button  Add Effect ▾. A menu appears.
3. Choose Entrance. A submenu appears.
4. Click Fly In. PowerPoint applies the effect. If the Auto preview box is checked, PowerPoint automatically provides you with a preview of the animation.

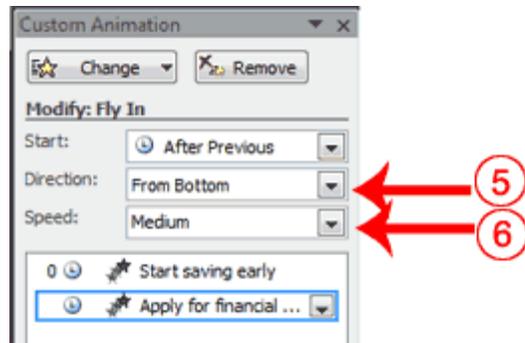

## Modify the Animation

1. Click the down arrow next to the Start field and then select After Previous. The Apply for Financial Aid field appears in the center of the Custom Animation pane.
2. Click the down arrow next to the Apply for Financial Aid field and then click Timing. The Fly In dialog box appears.

3. Type **0.05** in the Delay text box.
4. Click OK.

5. Click the down arrow next to the Direction field and then select From Bottom.
6. Click the down arrow next to the Speed field and then select Medium. If the Auto preview box is checked, PowerPoint automatically provides you with a preview of the animation. You can click the Play button  on the Custom Animation pane at anytime to preview an animation.

## Add Transitions

Transitions determine how your presentations move from one slide to the next. For example, a slide can move up onto the screen and replace the previous slide. PowerPoint provides several transition methods. You can add sound to a transition and you can control its speed. You can apply a transition to selected slides or to all of the slides in your presentation.

A transition can occur when the presenter clicks the mouse or after the amount of time you specify.

To apply a transition to selected slides:

1. On the Slides tab, hold down the Ctrl key and then click the slides to which you want to apply the transition.
2. Choose the Animations tab.
3. Click the More button  in the Transition to this Slide group. A menu of transitions appears.
4. Click the transition you want to apply. PowerPoint applies the transition. As you roll your pointer over each transition, PowerPoint provides you with a live preview of the transition.

To apply a transition to all slides:

1. Choose the Animations tab.
2. Click the More button  in the Transition to this Slide group. A menu of transitions appears.
3. Click the transition you want to apply. As you roll your pointer over each transition, PowerPoint provides you with a live preview of the transition.

4. Click the Apply to All button  in the Transition to This Slide group.

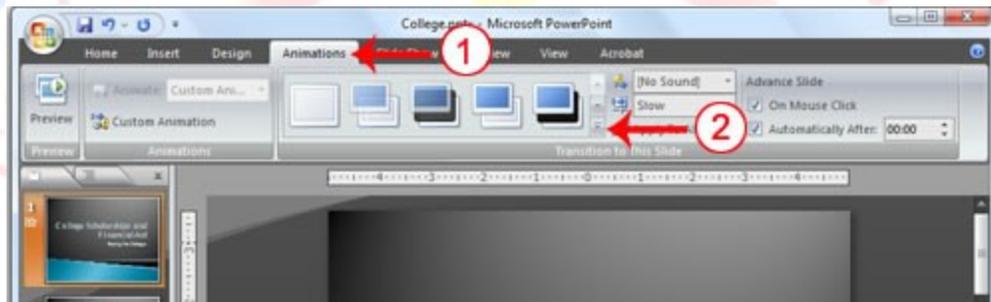

To add a sound to a transition:

1. Choose the Animations tab.
2. Click the down arrow next to the Transition Sound field and then click the sound you want. As you roll your pointer over each sound, PowerPoint plays the sound.

To set the speed of a transition:

1. Choose the Animations tab.
2. Click the down arrow next to the Transition Speed field and then click the speed you want.

### Add Transitions

1. Choose the Animations tab.

3. Type **00:07** in the Automatically After text box.
4. Click the Apply to All button . PowerPoint applies all of your changes to all of the slides.
5. Click Slide 1 on the Slides tab.
6. Type **00:03** in the Automatically After text box. PowerPoint changes the timing for Slide 1.

### Spell Check

PowerPoint checks your spelling as you type and displays errors with a red wavy line under the misspelled word. You can right-click and then select the correct spelling from the list of offerings on the menu that appears or select Spelling to open the Spelling dialog box. If you need to, you can initiate a spell check anytime you like. To start a spell check, do one of the following:

- Press F7.
- Choose the Review tab and then click the Spelling button .

If the spell check finds a possible spelling error, the Spelling dialog box opens with the spelling error highlighted. You can respond in several ways.
